# Our Ventures

## Manufacturing

The FMCG Division of Team Thai has witnessed rapid growth in both manufacturing and marketing of high quality household product brands. The FMCG segment is a huge market with massive potential, and the Company has already made its presence felt in these categories – toiletries, personal care products and cleaning solutions. To meet the demands of the dynamic consumer equations, especially where lifestyle and usage pattern are concerned, we have constantly innovated, and updated and upgraded our product range to stay one step ahead of the competition.

Team Thai has manufacturing facilities in India (Kerala & Tamilnadu) and of late we started a new factory set up in United Arab Emirates in the year 2022, where we are specializing manufacture of detergent powder and all kinds of surface active cleaning liquids to cater to the whole GCC as well as Africa.

## Export of consumer food & products

With the growing recognition and acceptance of Team Thai products in the country, we began to expand our horizon. Catering to the needs of the expatriates was the first priority and we set out to export a few niche food products and toiletries to the Middle East and African countries. This is a growing market expected to contribute greatly to the business of the Company. Our journey to be known as a global brand has just begun.

## Transport

The logistics division of Team Thai began operations in 1992 under the name Aghin Roadways (ARS). Since then, it has emerged as a service provider for many leading firms, thanks to its safe and on time delivery services. With a fleet of well-maintained vehicles, well-trained and experienced drivers and dedicated support staff, ARS has become trusted delivery partner for a number of leading cement manufacturers of the country. The presence of ARS is being marked in every state in the country with exponential growth in number of locations as well as the quantity and quality of our fleet.

## Plantation

Aysha Plantations spread across a sprawling area of more than 800 acres is a multi-crop cultivation land in the high ranges of Wayanad. The unique geographic and climatic conditions of this area make it appropriate for large scale plantation. Tea, coffee, cardamom, pepper and ginger are the main varieties commercially cultivated here for the domestic use as well as export purpose.
